FEDERAL MANDATE ANALYSIS COMPARISON

Administrative Regulation: 907 KAR 1:044
Contact person: Stuart Owen (502) 564-4321, extension 2015

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), 42 U.S.C. 1396a(a)(23), 42 U.S.C. 1396d(a)(2).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. 42 U.S.C. 1396d(a)(2) requires Medicaid program coverage of: "(A) outpatient hospital services, (B) consistent with State law permitting such services, rural health clinic services (as defined in subsection (l)(1)) and any other ambulatory services which are offered by a rural health clinic (as defined in subsection (l)(1)) and which are otherwise included in the plan, and (C) Federally-qualified health center services (as defined in subsection (l)(2) and any other ambulatory services offered by a Federally-qualified health center and which are otherwise included in the plan."

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The

administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response to question (a) also applies here.

(c) How much will it cost to administer this program for the first year? DMS does not anticipate additional costs as a result of the amendment.

(d) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Summary of Material Incorporated by Reference

The "Community Mental Health Center Behavioral Health Services Manual", December 2014 is incorporated by reference. This edition replaces the May 2014 edition. Revisions include establishing that this is the Community Mental Health Center (CMHC) Behavioral Health Services Manual rather than the CMHC Services Manual as effective January 1, 2015 CMHCs will be authorized to provide primary care services and the Department for Medicaid Services is promulgating a separate administrative regulation which will establish CMHC primary care service provisions; eliminating extraneous language regarding the Medicaid Program; clarifying the behavioral health professionals who can supervise professional equivalents; establishing that an associate level practitioner can render services under the supervision of an array of behavioral health professionals licensed to practice independently rather than a behavioral health professional within the associate level practitioners discipline (for example, previously a certified social worker (CSW) was only authorized to render services under the supervision of a licensed clinical social worker but via the amendment a CSW can render services under the supervision of a licensed psychologist, licensed professional clinical counselor, licensed marriage and family therapists, and more); replacing the term "treatment plan" with the term "plan of care" to synchronize terminology used in other Medicaid behavioral health administrative regulations; adopting plan of care requirements that are also established being established for behavioral health service organizations; clarifying that in order for services to a recipient to be reimbursable a diagnosis shall be recorded within the recipient's third visit except for mobile crisis services, crisis intervention, screenings, assessments, and screening, brief intervention, and referral to treatment for a substance use disorder (SBIRT) - previously no exceptions were listed); clarifying that health records must be retained for six (6) years rather than five (5) as six (6) is the current federal standard; inserting a definition of "face-to-face" which includes a Telehealth option if so authorized in the Department for Medicaid Services' Telehealth administrative regulation (907 KAR 3:170); clarifying that multi-family group outpatient therapy groups include related individuals (prior language prohibited related individuals from being in the same group outpatient therapy group); revising the description of mobile crisis services, therapeutic rehabilitation services, and assertive community treatment to synchronize with the provisions in the corresponding state plan amendment approved by the Centers for Medicare and Medicaid Services (CMS); deleting medication assisted treatment from the services as the current state plan amendment approved by CMS does not include this service; clarifying what constitutes continuous nursing services (which is a requirement for residential services for substance use disorders); clarifying that the sixteen (16) bed limit for residential services for substance use disorders [a federal limit as CMS views any structure with over sixteen (16) beds as being an institution for mental disease (IMD)] does not apply if

all of the recipients in the structure are under twenty-one (21) years of age or over sixty-five (65) years of age; clarifying peer support requirements consistently with the current state plan amendment approved by CMS; elaborating on provisions associated with pregnant women substance use prevention services (inserting requirements from an old administrative regulation that has been repealed); eliminating various reimbursement provisions as reimbursement is covered in another administrative regulation; eliminating language regarding electronic signature usage as this is already addressed in 907 KAR 1:044; adding certified alcohol and drug counselors (CADCs) to the practitioners authorized to provide individual outpatient therapy, group outpatient therapy, family outpatient therapy, collateral outpatient therapy, assessments, and screenings; deleting CADCs from the list of practitioners authorized to provide therapeutic rehabilitation services; and adding peer support specialists to those authorized to provide mobile crisis services.
